EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given by Michael W. Piper (Reg. No. 39,800) on September 12, 2007.
3. The application has been amended as follows:

Please amend the claims as indicated in complete listing of the claims attached to the end of this document.

4. The following is an examiner's statement of reasons for allowance:

Applicant's amendments filed June 28, 2007, appropriately address the rejections under 35 U.S.C. §§ 101 and 112.

Applicant's arguments filed June 28, 2007, with regard to the rejection of claims 1-43 under 35 U.S.C. § 102(a), have been considered and are generally persuasive. (*See* Remarks (06/28/2007) at pp. 21-24.) However, the present amendments were primarily proposed to more particularly point out and distinctly claim the invention in a manner believed to be consistent with applicant's intent as reflected by applicant's remarks, and to more clearly distinguish the claims over the prior art of record. Specifically, independent claims 1 and 16 have been amended to more clearly and positively recite the implementation of queues (as set forth in the

Art Unit: 2192

preambles of claims 1 and 16) using the recited memory space and coordinating the reading and writing of information to the queue through a coordination module (previously introduced, for example, through dependent claims 9 and 13). Likewise, independent claims 23 and 30 have been amended to more clearly and positively recite the implementation of shared memory between at least two COBOL programs (as set forth in the preambles of claims 23 and 30) through the mapping of the shared memory address in their respective linkage sections (previously introduced in claim 29).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
